Symposium Sponsored by
the NSF-IGERT Program in Comparative Genomics at the University of Arizona

Friday, April 26, 2013
10:30 am - 4:00 pm

Marriott University Park Hotel
880 E. Second Street
Tucson, Arizona 85719

PROGRAM:

10:30 "Genomic sources of regulatory variation: from mutation to polymorphism to divergence"
Patricia Wittkopp, University of Michigan

11:15 "Pathway regulatory evolution in fungi"
Rachel Brem, University of California, Berkeley

12:00 Lunch and Poster Session

2:30 "Understanding mechansims of response to novel and changing environments"
Christina Richards, University of South Florida

3:15 "Social regulation of gene expression in captive and wild primates"
Jenny Tung, Duke University

Lunch will be provided.
Please RSVP by April 18, 2013
