

April 3-5, 2014  
Marriott University Park Hotel · Tucson, Arizona

# DEEP GENOMICS

The University of Arizona IGERT Program in Comparative Genomics is sponsoring an international meeting on “deep genomics.” The symposium’s theme this year encompasses broad scale comparative inferences in the three areas of our training program, including comparative and evolutionary genomics of divergent species, genomics of development, traits, and related interaction networks originating early in evolutionary history, and computational challenges associated with genomics at a broad phylogenetic scale. The meeting will take place at the Marriott University Park Hotel adjacent to the University of Arizona campus in Tucson, April 3-5, 2014. The format of the meeting will allow considerable time for informal discussion and interaction among participants. Participation by graduate students and postdoctoral fellows is strongly encouraged, and discounted rates for registration will be available.

## **KEYNOTE SPEAKER**

**Kenneth Wolfe**, University College Dublin, Ireland

## **CONFIRMED SPEAKERS**

**Robert Beiko**, Dalhousie University, Canada

**William Cresko**, University of Oregon

**Miklós Csűrös**, Université de Montréal, Canada

**Patrick Degnan**, University of Illinois

**Dannie Durand**, Carnegie Mellon University

**Veronica Hinman**, Carnegie Mellon University

**Erin Kelleher**, University of Houston

**Junhyong Kim**, University of Pennsylvania

**Laura Landweber**, Princeton University

**Li-Jun Ma**, University of Massachusetts

**Michael Nodine**, Gregor Mendel Institute, Austria

**Robert Reed**, Cornell University

**Shin-Han Shiu**, Michigan State University

**Joseph Thornton**, University of Chicago

**Travis Wheeler**, HHMI Janelia Farm
